

## AVIAN PROTEIN BITS

### **DESCRIPTION:**

Breeder's Secret Avian Protein Bits are a complete and balanced daily food designed for budgies, cockatiels, finches, lovebirds and other small parrots. Made from highly digestible ingredients, these soft crumbles provide quality nutrition in every bite while helping minimise waste and selective feeding.

### **QUALITY INGREDIENTS**

Formulated with triticale, wheat, barley, maize, oats, peas, lupins, soy protein isolate, whey protein isolate, meat meal, vegetable oils, omega fatty acids, dried yeast prebiotic, essential minerals, carotenoids and a complete range of vitamins to support the nutritional needs of breeding and companion birds.

Breeder's Secret Avian Protein Bits contain a carefully selected blend of:

**Grains & Cereals:** Ground wheat, triticale, barley, maize and oats.

**Plant Proteins & Legumes:** Peas, lupins and quality soy protein sources.

**Animal Protein Sources:** Added protein ingredients to support breeding, growth and condition.

**Beneficial Oils:** Vegetable oils and natural omega fatty acids to support feather quality and overall wellbeing.

**Digestive Support:** Prebiotic ingredients to help maintain healthy gut function and nutrient absorption.

### **VITAMINS & MINERALS**

Fortified with a broad range of essential nutrients to support everyday health, including:

**Vitamins:** A, B-group vitamins, C, D3, E and K.

**Key Minerals:** Calcium, phosphorus, magnesium, potassium, sodium, zinc, iron, manganese, copper, iodine and selenium.

**Additional Nutrients:** Choline, biotin, carotenoids and other important micronutrients that assist feather condition, vitality and breeding performance.

### **BENEFITS**

Complete daily nutrition for small parrots and finches.

High-quality protein for breeding birds, growing chicks and active adults.

Supports feather development and vibrant plumage.

Helps maintain digestive health and nutrient utilisation.

Soft crumble texture encourages easy consumption and reduces waste.

Suitable for budgerigars, cockatiels, lovebirds, finches, canaries, grass parrots and many other small bird species.
